Obtaining

Crafting

Blanket Racks come in a single (silver/gray) color.
A blanket rack can be crafted with 3 Sticks, 3 Stone Buttons and 1 Stone Block.

Usage

Right-click a vertical or horizontal block with a blanket rack in hand to place. Blanket racks can be mounted on blocks, slabs, fences and wall but look best wall mounted. If placed on a horizontal surface, they will connect to that surface using a different model.

Blanket rack can store up to five blankets and supports dynamic placement (including correct color) on any slot depending on where the item is clicked. Right-clicking an empty blanket rack with a blanket will place it, or remove the current item if occupied. Right-click an item to remove it from the slot.
