Usage

Blankets are part of a tack set required to control (ride) tamed SWEM Horses. Using a blanket is the second tack item that can be used following a bridle; by default you cannot place a blanket on unless the horse has a bridle or halter. A blanket is a necessary pre-requisite to using a saddle.

Right click a tamed SWEM Horse with a blanket in hand to equip it - or open the horse's GUI menu (shift + right click with an empty hand) to place the item in the designated tack spot. If a horse already has a blanket on, you can easily 'hotswap' it for another by shift + right-clicking with the new blanket in hand.

> Tack-equip order: Bridle > Blanket > Saddle > Girth Strap. Optional: Breast collar, Leg Wraps, Horse Armor, Saddle Bag

Blankets do not offer any perks or buffs, and you can use any blankets with any other riding tack pieces to mix English, Western & Adventure. The only exception is Adventure Blankets require a full matching set to use Horse Armor, but once the armor is put on the blanket can be 'hotswapped' out for different versions.
