## Obtaining

### Crafting

Bridle Racks come in a single (gray/black) color.

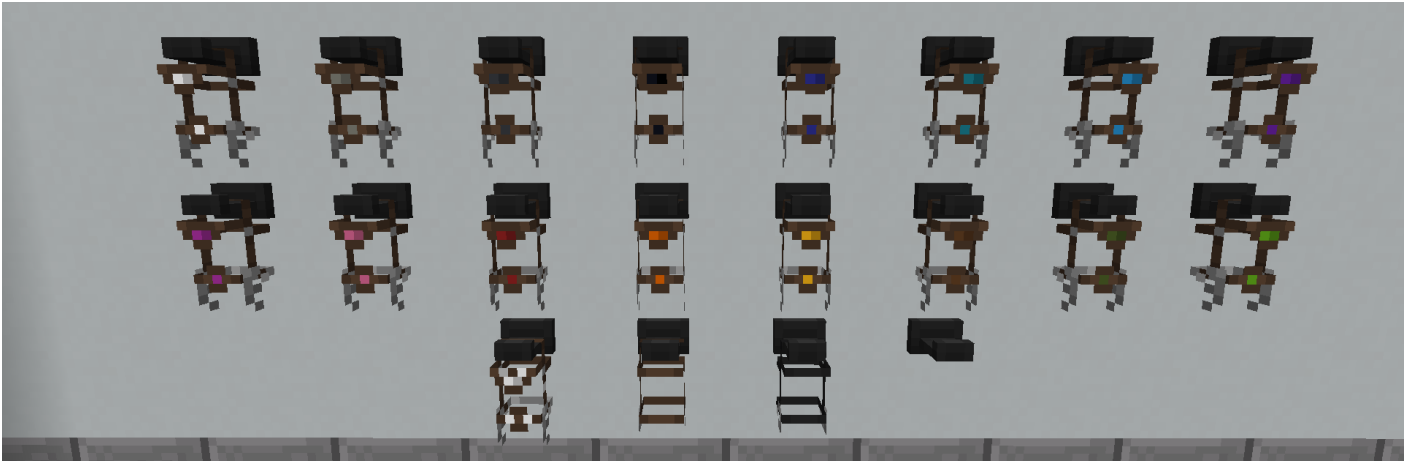

A bridle rack can be crafted with 1 Stone block and 1 Stone slab.

## Usage

Right-click a vertical block with a bridle rack in hand to place. Bridle racks can be mounted on blocks, slabs, fences and wall but look best on full blocks and upside down stairs or top slabs.

A bridle rack can hold one [Bridle](#) or [Halter](#) at a time. Right-clicking an empty bridle rack with a bridle or halter will place the item, and right-clicking again with an empty hand will remove it.

**Shown:** Bridle rack with all Bridle variants (Western - Adventure - English) and unused version.

**Shown:** Bridle rack with all Halter variants.
