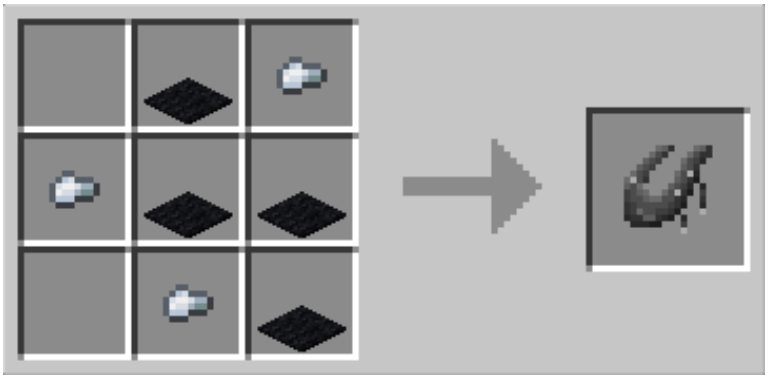
Obtaining

Crafting
Driving Harnesses comes in 1 (black) color.
A Driving Harness is crafted with 3 Iron Nuggets and 4 Black Carpet.



Usage

A driving harness is an optional part of any tack set. This tack item can only be used following a bridle.

Right click a tamed SWEM Horse with a driving harness in hand to equip it - or open the horse's GUI menu (shift + right click with an empty hand) to place the item in the designated tack spot. If a horse already has a breastcollar category item on, you can easily 'hotswap' it for another by shift + right-clicking with the new breastcollar in hand.

der: Tack-equip

Bridle > Blanket > Saddle > Girth Strap. Optional: Breast collar or Driving Harness, Leg Wraps, Saddle Bag

Driving harnesses do not offer any perks or buffs, and you can use it with any other riding tack except a breast collar (share the same slot). The driving harness looks best when the tack (excluding bridle) rendering is disabled.

Known Issues

If you find an issue, please report it to our bugs channel on **Discord**. We ask that you look to see if your issue was reported first!

- `1.6.11` Tack unrenders (invisible) on reloading the game or chunks. **Bug Report**
