Usage

> Currently all Horse Toys are non-functional decor blocks - but plan to have features implemented in future!

Horse toys are primarily for decoration. Right-click the ground with a toy in hand to place it, or against a wall or suspended block for hanging items. Toys can be used for many stable decoration and RRP purposes, we suggest:

- Add enrichment to a stable with hanging treats or salt licks.
- Add enrichment to pastures with jolly balls, slow feeders and brushes - the latter is great for cow paddocks too!
- Clutter for your shelves, storage cupboards or equine stores.

Toy	Placement	Description
