## Obtaining

### Crafting

Pasture Blanket Racks come in a single (silver/gray) color and long or short variants.

A short pasture blanket rack can be crafted with 3 Sticks, 3 Stone Buttons and 1 Stone Slab.

A long pasture blanket rack can be crafted with 2 Sticks, 2 Stone Buttons and 1 Short Pasture Blanket Rack.

## Usage

Right-click a vertical or horizontal block with a pasture blanket rack in hand to place. Pasture blanket racks can be mounted on blocks, slabs, fences and wall but look best wall mounted. If placed on a horizontal surface, **short** pasture blanket racks will have a different model, whereas long pasture blanket racks will not as they are too long to be mounted on a surface (allows it but will clip through the block below!).

A short pasture blanket rack can store one, two or three blankets at a time - which appears folded over to occupy 1B height. A long pasture blanket rack can store up to five blankets and hang full length to occupy 2B height.

Pasture blanket racks supports dynamic placement (including correct color) on any slot depending on where the item is clicked. Right-clicking an empty pasture blanket rack with a blanket will place it, or remove the current item if occupied. Right-click an item to remove it from the slot.
