## Obtaining

Deposit bags come in a single Green color variant.

1 deposit bag can be crafted with 2 Dried Kelp and 1 Iron Nugget.

## Usage

A maximum of 1,000,000 Thyms can be held within the deposit bag. The player can craft as many deposit bags as needed.

Right-click with a wallet or wristlet in hand to open the GUI.

- View the balance in the wallet - maximum value that can be withdrawn
- Add or remove all balance

**[+]** Adding will move all coins in the player's inventory into the deposit bag, increasing the balance

**[ - ]** Removing will withdraw all funds into the players inventory as possible, reducing the balance

This will be withdrawn in the largest coins possible to reduce the number of individual Thym's

- Add or remove specific value coins

**[ + ]** Add a single coin of the selected value into the deposit bag

**[ - ]** Remove a single coin of the selected value back into the player's inventory

**[ Shift + ]** Add up to 64 (full stack) of that value coin into the deposit bag

**[ Shift - ]** Move up to 64 (full stack) of that value coin into into the player's inventory

## Additional

Unlike [wallets or wristlets](#), funds stored in a deposit bag are **not linked to the player**. In this way, storing funds in deposit bags can be a safe means of avoiding having money stolen if a player dies in PVP on multiplayer servers, as funds not associated with the wallet+ are not subject to config values. However:

- Deposit bags can be dropped on death if keepInventory is not enabled
- Deposit bags can be accidentally dropped and picked up by other players
- Deposit bags can be accessed by anyone; players can withdraw the full value or continue to use it to store their funds

- **Deposit bags are never completely secure unless stored in a [player vault](#), ender chest or on secure landclaim with no shared permissions.**
