

Bridle

Description: A bridle is an item that can be placed on tamed [SWEM Horses](#) to steer them. It comes in English, Western, and Adventure variants.

Details:

	Rarity color:	Common
	Renewable:	Yes
	Stackable:	Yes (16)
	Durability:	None

Obtaining

Crafting

English Bridle

English Bridles come in 2 colors - black and brown.

An English Bridle is crafted with 1 Tripwire Hook, 1 Iron Nugget, 2 [Refined Leather](#), and either 1 Black Dye or 1 Brown Dye.

A crafting grid diagram showing the ingredients for an English Bridle. The grid is 3x3. The top row contains two empty slots followed by a Refined Leather icon. The middle row contains an empty slot, a Refined Leather icon, and a Brown Dye icon. The bottom row contains a Tripwire Hook icon, an Iron Nugget icon, and an empty slot. A large grey arrow points from the grid to a box containing the English Bridle icon.

Western Bridle

Western Bridles come in 16 Minecraft colors.

A Western Bridle is crafted with 1 Tripwire Hook, 1 Iron Nugget, 3 [Refined Leather](#), and 1 Corresponding Dye.

A Western Bridle can be redyed with 1 Dye of the chosen color.

Adventure Bridle

Adventure Bridles come in 1 (brown & gray) color.

An Adventure Bridle is crafted with 1 Tripwire Hook, 1 Iron Nugget and 4 [Refined Leather](#).

Usage

Bridles are part of a tack set required to control (ride) tamed [SWEM Horses](#). Using a bridle is the first tack item that can be used prior to any other tack pieces. It is placed in a slot that is also used by the [Halter](#) - both items cannot be used at once.

Right click a tamed [SWEM Horse](#) with a bridle in hand to equip it - or open the horse's GUI menu (shift + right click with an empty hand) to place the item in the designated tack spot. If a horse already has a bridle or [Halter](#) on, you can easily 'hotswap' it for another by shift + right-clicking with the new bridle in hand.

Tack-equip order: [Bridle](#) > [Blanket](#) > [Saddle](#) > [Girth Strap](#). Optional: [Breast collar](#), [Leg Wraps](#), [Horse Armor](#), [Saddle Bag](#)

Bridles do not offer any perks or buffs but are required to steer the horse. You can use any bridle with any other riding tack pieces to mix English, Western & Adventure. The only exception is Adventure Bridles require a full matching set to use [Horse Armor](#), but once the armor is put on the bridle can be 'hotswapped' out for different versions.

Leading

SWEM Bridles have reins that can be used as a normal minecraft lead so never need to worry about forgetting your lead on an adventure. To use the reins as a lead, shift + left click a bridled [SWEM Horse](#) with an empty hand - doing so will instantly put them on lead and remove the reins from their neck. To put the reins back over their neck, right click the horse OR shift + left click them again and they will no longer be on a lead.

Other

Prior to 1.20, Horses cannot eat while wearing a bridle, but can still drink. Hitched horses can do neither interaction.

Bridles also prevent the horse from lying down to sleep at night, and wake them up if equipped while they are sleeping.
