## Obtaining

Potion brewing uses blaze powder - use [Cantazarite](#) (+ other ingredients) to make blaze rods without visiting the nether!

## Brewing

[Cantazarite Dye](#) and 3 Water Bottles in a brewing stand yields 3 Cantazarite Potions.

## Usage

Cantazarite potions will not work to convert horses into SWEM horses if breeding tokens are enabled in [server configs](#).

Right-click one a compatible entity with a [Cantazarite Potion](#) to immediately convert them. This includes:

- Horse (Minecraft)
- Horse or Pony ([Realistic Horse Genetics](#))

Converted horses will have a coat related to the simplified coat genetics of the vanilla horse. This coat selection can be [cycled](#) (changed) forward with Lapis or backwards with Redstone **unless** coat cycling is disabled in [server configs](#).

Cantazarite potions are single use and the entire bottle will be consumed.
