

Cantazarite Potion

Description: A Cantazarite Potion is an item for spawning SWEM horses.

Details:

	Rarity color:	Common
	Renewable:	Yes
	Stackable:	No
	Durability:	None

Obtaining

Potion brewing uses blaze powder - use Cantazarite (+ other ingredients) to make blaze rods without visiting the nether!

Brewing

Cantazarite Dye and 3 Water Bottles in a brewing stand yields 3 Cantazarite Potions.

Usage

Cantazarite potions will not work to convert horses into SWEM horses is breeding tokens are enabled in server configs.

Right-click one a compatible entity with a [Cantazarite Potion](#) to immediately convert them. This includes:

- Horse (Minecraft)
- Horse or Pony ([Realistic Horse Genetics](#))

Converted horses will have a coat related to the simplified coat genetics of the vanilla horse. This coat selection can be cycled (changed) forward with Lapis or backwards with Redstone **unless** coat cycling is disabled in [server configs](#).

Cantazarite potions are single use and the entire bottle will be consumed.

Known Issues

If you find an issue, please report it to our bugs channel on [Discord](#). We ask that you look to see if your issue was reported first!

Changelog

View Changes

This is not a complete list of version changes / fixes. It is a changelog of relevant wiki-related version information.

MC Version	Release	Notes
1.18.2	1.18.2-1.0.0	Cantazarite potions will not work if configs specify breeding tokens = true
