Obtaining

Crafting

Horse Armor Racks come in a single (silver) color.
A horse armor rack can be crafted with 3 Iron Ingot, 3 Stone Blocks and 3 Stone Slabs.

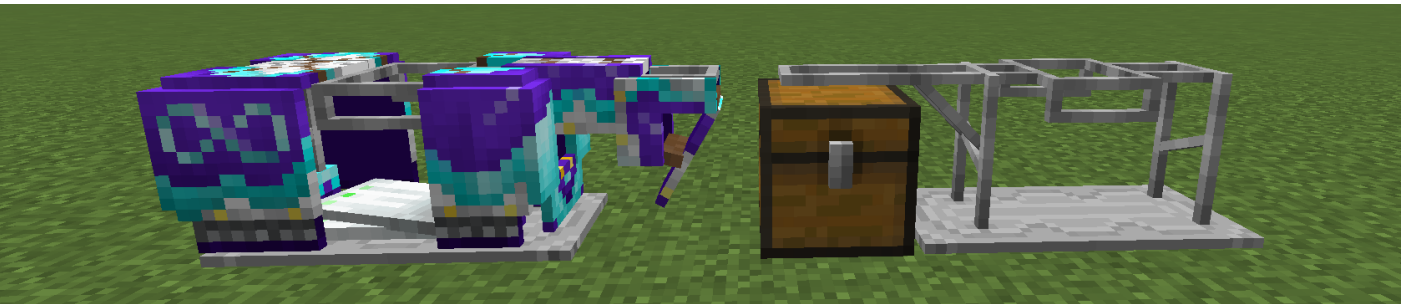

Usage

Right-click a horizontal (ground) block with an armor rack in hand to place. The armor stand will always place with the neck section facing towards the player, and the block clicked will be where the middle of the rack sits. The rack is 2x1, but occupies a 3x1 space - the front block is not solid and can be passed through, or items placed under it.

A [horse armor](#) rack can hold one armor set at a time. Right-clicking an empty armor rack with any level horse armor will place the item, and right-clicking again with an empty hand will remove it.

The armor rack only accepts **SWEM** [Horse Armor](#). Pasture blankets cannot be placed on the armor rack.
