Hose

Description: A Hose is an item that can remove [SWEM Horse](#) pee stains from blocks and fill [troughs](#) and [half barrels](#) in range of a [Block O' Water](#).

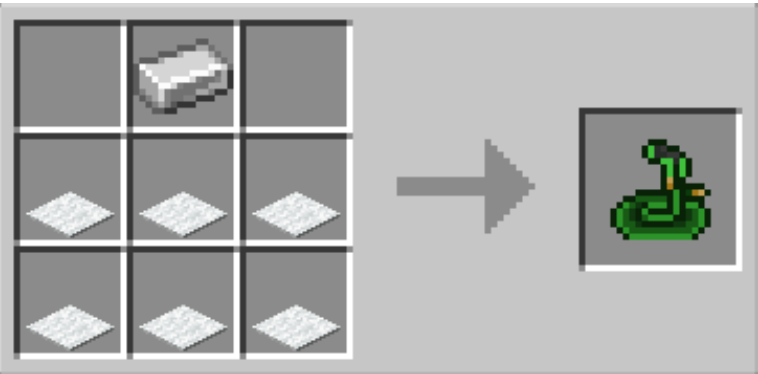

Details:

Rarity color:	Common
Renewable:	Yes
Stackable:	No
Durability:	None

Obtaining

Crafting

Hoses come in a single (green) color.
A hose can be crafted with 6 Wool Carpet (any) and 1 Iron Ingot.

Usage

> Hoses/Spigots requiring a Block O' Water is a configurable value in [common configs](#). It is enabled (true) by default.

Water Source

Hoses within a 15 block radius of a [Block O' Water](#) will display a small inventory texture indicator that they are connected to a water source. When the player is out of range, the indicator will change from blue to transparent.

Cleaning

Right clicking a puddle of horse Pee while holding a hose will clear it. A hose will clean pee puddles regardless of whether there is a Block O' Water nearby. The hose will be ineffective against [Shavings](#) and should be cleared up with a pitchfork instead.

Water

Right clicking [troughs](#) and [half barrels](#) will fill one water level per use.

Known Issues

If you find an issue, please report it to our bugs channel on [Discord](#). We ask that you look to see if your issue was reported first!
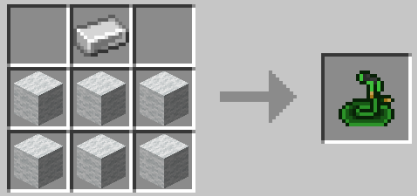

- Cannot be used to clean pee in adventure or in protected areas on Multiplayer.

Changelog

View Changes

> This is not a complete list of version changes / fixes. It is a changelog of relevant wiki-related version information.

MC Version	Release	Notes
1.20.1	1.20.1-1.3.0	**[Bug Fix]** Hose could not be crafted due to change in minecraft:carpet tag
1.18.2	1.18.2-1.2.8	Hose has an inventory texture when connected to a block of water.
		Hose no longer places a source of water on the ground if right-clicked.
	1.18.2-1.0.0	Hose recipe changed from Wool Blocks to Carpet, accepts any item with a minecraft:carpet tag (including modded carpets).

1.16.5	1.16.5-0.5.3.21	**[Deprecated Recipe]**
