

# Pasture Gates

**Description:** A pasture gate is a block that most mobs cannot jump over. It comes in the types Care and Horse.

**Details:**

<b>Renewable:</b>	Yes
<b>Stackable:</b>	Yes (64)
<b>Tool:</b>	Pickaxe (Any)
<b>Blast Resistance:</b>	N/A
<b>Hardness:</b>	N/A
<b>Luminant:</b>	No
<b>Transparent:</b>	Yes
<b>Flammable:</b>	No
<b>Flammable (Lava):</b>	No

## Obtaining

Pasture Gate (Horse) is a 2 block wide version, and Pasture Gate (Care) is a 3 block wide version of the pasture gate.

**Crafting**

Pasture Gates (Horse) come in all 16 base Minecraft colors.  
2 pasture gates can be crafted with 2 Iron Ingots, 2 Wood Planks (any vanilla) and 1 Dye of the chosen color.

Pasture Gates (Care) come in all 16 base Minecraft colors.

2 pasture gates can be crafted with 2 Iron Ingots, 3 Wood Planks (any vanilla) and 1 Dye of the chosen color.

---

## Usage

The player and most mobs are unable to jump over gates. However, they can be opened like doors. They can be placed by clicking on the corner of a block where you want the door hinge to be.

---

## Known Issue

If you find an issue, please report it to our bugs channel on [Discord](#). We ask that you look to see if your issue was reported first!

- **[~]** Gates may not fully render all sections on some MP servers - add [Connectivity](#) to fix. This is not a SWEM issue.
- **[~]** Gates cannot place in a 'clear' space - fill the doorway space with random blocks, remove and try placing the gate.
- **[~]** Gates desync on some MP or SP worlds - unrendered sections, cannot see open until reload, opens single section.

We cannot reliably replicate or identify a root cause of the last issue, therefore a fix is unlikely / not possible!

It is strongly recommended that gates (and other multiblock items like stall doors and jumps) are deleted prior to taking a WorldEdit selection to avoid issues. Including jumps and gates etc in WE Schematics **can potentially corrupt schematics**.
