| <b>Flammable:</b>        | No            |
| <b>Flammable (Lava):</b> | No            |

## Obtaining

**Natural Generation**

Star Worm Cobble can generate at Y level 50 and up. It is often exposed in Mountain regions. When spawned or placed it glows, so an ideal time to go searching for Star Worm Cobble is at night in the mountains, but it can also be found in other biomes and underground.

**Breaking**

Star Worm Cobble can be broken by hand, however it is quicker and more efficient to use a pickaxe (any).

**Crafting**

You can craft Star Worm Cobble with 8 [Star Worms](#) and 1 cobblestone block. It yields 2 Star Worm Cobble.

# Usage

## Crafting ingredient

Star Worm Cobble is the core ingredient to create [Star Worms](#), a product needed to create [Star Worm Goop](#).
